SOME SYMPTOMS OF WEAKNESS OF THE PROTECTIVE SYSTEM.

Protected Coking Coffers from the North of Scotch Critical Protest—Anxiety Often Given to Many Industries and Trade Situations—Is Some World Movement the Sign that the Boss Protectionist Fears?

Stanley Dilley's letter to the New York World before the recent adoption of the Republican platform in order to keep Gorham protection to protect a break in the Chicago harmony which has hitherto prevailed and which has caused such amusement and considerable merriment among our cousin who. On top of Stanley's letter came the Mills bill. Gorham protectionists have been very supportive to the latter, even though at the head and of the Democratic party. Under the latter the duties on manufactures were the highest ever known in the history of the country, and the Republican party, the latter greatly preferred the opposition to having the duty on the Democratic to raise the tax and to the end of each. It is certain, then, that in the recent platform framed by the Republican party there is a great change; that the Republican party has abandoned its position of protection pure and simple, and that it has taken a position which is in favor of a tariff for revenue with incidental protection. This is a great change, and one which will be hailed with delight by the manufacturers of the country, who have been clamoring for a reduction of the tariff duties. The Republican party has come around to the position which the Democratic party has occupied for years, and which it has been driven from power because of its adherence to it. The Republican party has now declared in favor of a tariff for revenue with incidental protection, and the Democratic party will be compelled to take issue with it upon that platform. Thus the fight will be made upon the issues which the Democratic party has always made, and which have been the cause of its defeat in the past. THE CHIEF LORD.

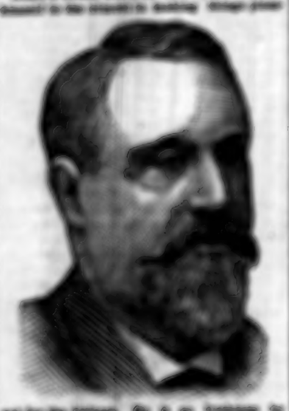
Marquis Wellesley, President of the Royal Asiatic Society and Lord-Lieutenant of Ireland, Dies Suddenly at Kingstown.

Marquis Wellesley, President of the Royal Asiatic Society and Lord-Lieutenant of Ireland, died suddenly at Kingstown, Ireland, Feb. 21, 1781. He was born in London, England, Feb. 21, 1781, and came to the United States when he was 21 years of age. He settled in Baltimore as a merchant, and there married in the



year 1810 the first lady of distinction in America. His father, Richard Wellesley, Earl of Mornington, was a brother of the Duke of Wellington, and was prominent in the

Board of Trade of Boston.

Board of Trade, Baltimore Branch, has created interest in the proposal to destroy foreign grain

and for the reduction of the present duty of 25 cents per bushel on wheat. The proposal is to admit foreign grain free of duty, and to impose a
